

CSIOP Section-Specific Programming and CPA Keynote Events

Note that while we have laid out the main keynote events for CPA and only listed the CSIOP section-specific programming for your convenience, we would note that there is quite a bit of wonderful programming in other sections, and would encourage you to look at the conference program as a whole. Sections directly relevant to the conference theme of “understanding and improving the workplace” are denoted in red. In addition, although livestreaming of the entire conference was not viable for CPA, there are some sessions (including our AGM and Section Invited Speaker) that will be livestreamed. The conference at a glance and list of sessions that will be livestreamed for the conference are at the bottom of this document.
