#### 1. Greetings and Update from the Chair

This is a rather brief bulletin as there is not much news to report since the last issue. Moreover, the Convention issue will follow shortly.

We have received several nominations for student representative on the I/O Section executive and ballots are being mailed out to student members. We hope to announce the name of the elected student representative at the CPA convention.

Our plans for the 1991 Convention in Calgary are becoming a reality. We look forward to a full and exciting program for the I/O Section. At time of writing, there is still room for a few more participants in the pre-convention workshop and registrations are still being accepted. If you have been thinking of attending the workshop, please register a.s.a.p.

As usual, we are planning a Friday evening dinner and social jointly with Section 19.

This year, thanks to the efforts of Tom Janz, we hope to gather at the University of Calgary's Faculty Club. We will post a sign-up sheet for those interested in attending and I would urge you to sign up early as the lists have filled up quickly in the past. Further details on the convention will be provided in the next issue of the Bulletin.

#### 2. A History of the I/O Section

It's amazing how quickly historical details are forgotten and information is irretrievably lost in our rapidly changing world unless accurate records are kept. Our Section is still relatively new yet, already, much of our early history is in danger of being lost.

In order to help preserve the Section's history I have attempted to reconstruct, as accurately as possible, the executive membership of the Section since its inception. The recollections of those I interviewed were sometimes vague and occasionally contradictory. As a result, the list presented below should be viewed as tentative.

If you have any information that would help me to complete, verify, or correct the list of executive members please call or write me (Willi Wiesner) at the phone number or address provided below under the **Contacts** section. Also, if you have any other

information about the development of the Section which you think should be recorded or have some anecdotes you wish to relay please let me know. Your assistance in preserving the Section's history would be very much appreciated

### THE EARLY YEARS

The I/O Section was founded by several individuals who had a vision of an I/O Psychology presence in Canada. From its modest beginnings, the Section has continued to prosper due to the dedication of these individuals and others to whom the torch was passed. According to my sources, individuals who were instrumental in nurturing the fledgling I/O Section include: Ken Grant, Robert Haccoun, Lorne Kendall, Gary Latham, Michael McCarrey, Paul Oeltjen, and Pat Rowe. If there are others that you know of who were there in the beginning, please let me know so I can add them to the list.
